How to use this guide

The boxes in this guide are real checkboxes. Tick them on screen as you go, in Adobe Acrobat Reader, Apple Preview or a browser, and save the file to keep your ticks. They're a checklist for you; nothing is sent to us.

This guide is tagged for screen readers. Headings, tables and checkboxes are announced, and the reading order follows the page.

ONTARIO · ON YOUR BIRTHDAY

What changes at 25

Two kinds of cover can end on the same day. Here's what usually happens.

Cover that can end around your 25th birthday

COVER	WHEN IT USUALLY ENDS	WHAT TO DO
A parent's benefits plan	At 21 unless you're a full-time student, and at 25 at the latest (26 in Quebec)	Ask your parent for the date in their plan's booklet. You have 60 days after it to join First Cover with no health questions.
OHIP+ prescriptions	On your 25th birthday	Prescriptions are included in every First Cover plan from day one.
Canadian Dental Care Plan	Doesn't end at 25. It covers people 18 to 64 with no dental insurance and a family net income under $90,000	If that's you, apply there first. Buying our Dental module could make you ineligible.

OHIP (the provincial health plan) still covers doctor visits and hospital care after 25. What it doesn't cover is most prescriptions, dental, therapy, physio and glasses. That's what First Cover is for.

Sources: Ontario.ca, "Learn about OHIP+"; Manulife, student dependant coverage FAQ; Government of Canada, Canadian Dental Care Plan. Plans differ; check your own booklet.

Included	**Virtual care**	Video visits with a doctor or nurse practitioner	Unlimited	
Included	**Travel medical**	Emergency care outside your province, trips up to 30 days	$1 million	
☐	**Dental**	Check-ups, cleanings and fillings, at 80%	$750	$19
☐	**Mind**	Therapy with a psychologist, psychotherapist or social worker, at 100%	$1,000	$16
☐	**Body**	Physio, massage therapy, chiropractic care, at 80%	$500	$11
☐	**Vision**	One eye exam, plus glasses or contacts	$250 every 2 years	$7

Later, when life changes

Income protection pays part of your income if you can't work, useful if you're freelance. Term life pays out if you die, worth it when someone depends on you. Critical illness pays a lump sum for serious illnesses. None of these are in your quote.

YOUR CHECKLIST

Before you start your cover

Five things to tick. Most take a minute.

- [ ] **I know the date my current coverage ends.**
  It's in your parent's plan booklet, or ask HR.
- [ ] **I checked the Canadian Dental Care Plan.**
  canada.ca/dental. Do this before you tick Dental.
- [ ] **I listed the prescriptions I take.**
  So you can see what the plan pays from day one.
- [ ] **I know who I'd see for therapy, if I want Mind.**
  Mind pays a psychologist, psychotherapist or social worker.
- [ ] **I read the plain words on page 6.**
  So nothing in your contract is a surprise.

GLOSSARY

Plain words

Premium

What you pay each month.

Deductible

What you pay before the plan starts paying. Ours is $0.

Co-insurance

The share of a bill the plan pays. "80%" means you pay $20 of a $100 bill.

Yearly limit

The most a part of the plan pays in one plan year. It resets every year.

Waiting period

Time between signing up and a benefit starting. 0 days for prescriptions, 3 months for fillings.

Claim

Asking the plan to pay for something. Most clinics do it for you when you show your card.

Group coverage

Benefits through an employer, or a parent's employer.

Pre-existing condition

A health issue you had before joining. With no health questions, it's still covered.
